

## 80 Central locking system

Designation	Nature and reason for modification	Implementation dates
Fuel filler flap actuator	Actuator equipped with anti-theft lock	approx. 03/85
Wiring harness	Ground connection from trunk lid actuator (S49) via lighting/central locking system warning buzzer contact (S8/2)	approx. 05/85
Rear door actuator	Direction of installation modified (connection in direction of travel) and connection hose lengthened to 350 mm	A 197790 F 010913
Supply pump	Electronics improved	A 245572 Sedan
Wiring harness	Ground connection from trunk lid actuator (S49) via main ground (W1)	approx. 05/86 Sedan
Actuator	Actuator with sliding sleeve lock	approx. 12/86 phased in
Fuel filler flap actuator	Clip-fit actuator	A 490369 Sedan Station Wagon from start of production
Trunk lid actuator	Clip-fit actuator with quick-fit connection	Coupé from start of production
Supply pump	Additional manufacturer (VDO)	approx. 06/87
Tailgate actuator	Replaced by actuator with soft seal (as front door)/easier to operate	Station Wagon F 60097
Wiring harness	Improved soldered supporting points (watertight)	approx. 03/88
Lighting/central locking system warning buzzer contact (S8/2)	Switch without cable	A 600532 F 052098
Actuator	Neutral housing (Hella)	approx. 04/88
Pneumatic lines	Pneumatic lines with quick-fit connections	from A 861403 to A 866954 from F 097724 to F 098305
Supply pump	Power boost	A 875395 F 092086
Front door actuator	Protective covering	A 391256 F 025886

Designation	Nature and reason for modification	Implementation dates
Rear door actuator	Protective covering	A 711566 F 057649
Fuel filler flap actuator	Additional manufacturer (Bosch)	05/90
Pneumatic lines	Pneumatic lines with quick-fit connections	approx. 09/90
Trunk lid lock actuator	Actuator with red shift rod mounting (with trunk lid auxiliary locking device only)	approx. 11/91
Supply pump	Infrared remote control for central locking system (IFZ)	approx. 10/92
